FORBES COIN DISPENSER

SikkaBanker
**Note to Coin
Change Dispenser**

A revolution in currency conversion !

In a cash based economy there is always a constant need for change in day to day transactions. Majority of change is used in the form of coins, which are not always easily available when required.

Forbes Note to coin change dispenser, addresses this requirement in an efficient & convenient manner. It has varied application across wide range of establishments such as banks, railway platforms, Local transport, public places and retail outlets. An innovative design with high coin storage capacity ensures reliable & efficient coin dispensing.

Its intelligent functionality allows dispensing of mix number of coins for the specified amount, thereby extending the availability of the machine without refilling, resulting in lower operational costs.
